

DISTRICT GOALS

The mission of the Jericho School District, Success for Every Student, requires that the district create an educational system that has as its focus the best interests of each individual student. The district is committed to providing an array of programs, opportunities and services that will support all students as they endeavor to meet the challenges of excelling in a rigorous academic curriculum, communicating in an environment of respectful social interaction and developing their interests and talents. To this end, the Jericho Board of Education has adopted the following goals:

- To create a place of learning that will explore and provide for every aspect of students' capacities for learning by developing a broad, challenging and engaging curriculum.
- To provide students with the knowledge and skills necessary for the twenty-first century.
- Educate the “whole child” through SEL initiatives. Build emotional balance and resilience in students.
- Foster and encourage communication, understanding and participation of the entire school community to enhance educational partnerships.
