

School Breakfast Exemption

The Federal and State governments have mandated that all school districts implement a breakfast program for students.

Based on a survey Jericho School District sent to parents of children in grades K-5, the District is requesting an exemption from the breakfast program for the Seaman and Cantiague Elementary Schools for the 2008-2009 school year. The results of the survey indicated that more than 80 percent of those responding would not use the program.

The George Jackson Elementary School will have a pilot breakfast program for the 2008-2009 school year..

If any parents have questions or concerns regarding the request for the one year exemption please contact Dr. Joan Colvin, Assistant Superintendent for Business Affairs, 203-3600 extension 3214 or Tracy Gilet, School Lunch Manager, extension 3258..
